

'Epilepsy Scotland, UCB (Union Chimique Belge) and GlaxoSmithKline (GSK) UK working jointly to evaluate and subsequently improve the services for People with Epilepsy in Dumfries and Galloway Health board'

This project was completed at the end of June 2015 where GSK had its last involvement. A full write up of the outcomes of the project was completed by our Joint Working partners UCB and Epilepsy Scotland.

For more information about this project please contact UCB's medical information team:
