

# UK Charitable Partnerships and STEM education

At GSK we are committed to supporting the communities in which we live and work and finding new ways to inspire the next generation of scientists and engineers, through our UK charitable partnerships and STEM education programmes.

## Corporate charitable partnership programmes

### GSK IMPACT Awards in partnership with The King's Fund

Our flagship annual awards programme recognising charities working to improve the health and wellbeing of communities across the UK

 **Over £7.4m** awarded since 1997

 **478** GSK IMPACT Award winners working at the heart of their communities

**90** member organisations in the GSK IMPACT Awards Network receiving training and development valued at an average of **£9,500** each

### Celebrating new charitable partnerships with:

 **MAGGIE'S**  
Everyone's home of cancer care

Funding cancer care across Maggie's centres

Founder patron of the new West London Onside Youth Zone

### Proud of our long-standing charitable partnerships with:

 **WellChild**  
the national charity for sick children

Funding **10 WellChild nurses** supporting 1,764 children with serious and complex health conditions

For over **25 years** we have been supporting their health and wellbeing services

### Recognising employee engagement with:

**£1.24m** raised by UK employees for Save the Children. 100% of these funds support the UK programmes supporting early learning and development.

 |  **Save the Children**  
HELPING TO SAVE ONE MILLION CHILDREN'S LIVES

**Making a difference**  
Since 2001, we have donated nearly

**£4 million**

to charities and community-based organisations which our staff are directly involved with

## STEM education

### We educate, recruit, develop and inspire the next generation

by providing engaging programmes from secondary school to post-graduate

**Sponsor** of the GSK UK Young Scientist and GSK UK Young Engineer of the Year Awards

Major sponsor of The Big Bang Fair, Europe's largest celebration of science, technology, engineering and maths for young people

### Over 25 year's **SCIENCE MUSEUM**

partnership with the Science Museum in London

Principal Sponsor of Medicine: The Wellcome Galleries, bringing science to life for more than 1 million people each year with the most significant medical collections in the world

Since 2008, we've supported the Glasgow Science Centre's BodyWorks on Tour programme across Scotland reaching over

**850,000 people**

**230 apprentices**

working on high profile, real-world projects in roles from engineering and manufacturing to laboratory science and finance

Working with more than **60** universities and research institutes on collaborative projects in partnership with UK Research & Innovation

**280** post-graduate students supported by spending at least 3 months embedded in GSK research teams

**450+** employees

volunteering their time as STEM ambassadors to promote STEM to young people
